# ALEXANDER HENRY PATNICK

Rehovot | 052-412-4239 | alex.patnick@gmail.com | http://patnick.click/

## PROFESSIONAL SUMMARY

AI and Technical Operations Specialist with 10+ years of experience in B2B SaaS, workflow automation, and technical problem-solving. Hands-on experience building AI-powered applications, integrating LLM APIs, and optimizing operational workflows. Reduced manual ticket intervention by 33% through AI automation. Skilled in SQL, API integrations, technical troubleshooting, and cross-functional collaboration with R&D and business teams.

## PROFESSIONAL EXPERIENCE

### Systems Administrator and Operations Architect
### MirageIT | Tel Aviv, Israel | April 2026-Present

- Led the transition from Jira Service Management to monday.com, redesigning operational workflows to improve efficiency and consistency.
- Explored and applied monday Sidekick to support AI adoption and day-to-day workflows.
- Documented operational processes to improve consistency and knowledge sharing.
- Implemented Proxmox virtualization infrastructure.

### Senior Solutions Engineer/Support Lead | Technical Enablement Specialist
### Faddom | Ramat Gan, Israel | October 2022-December 2025

- Implemented AI-assisted support workflows that reduced manual ticket intervention by 33%.
- Configured Intercom Fin AI and designed customer service workflows to improve support processes.
- Independently led the migration from Zendesk to Intercom, covering workflow design, routing, reporting, knowledge base migration, chatbot configuration, and ongoing administration.
- Investigated APIs, webhooks, authentication, PostgreSQL, and server logs to diagnose technical issues and support root cause analysis.
- Collaborated with Support, Customer Success, Sales, R&D, and technical leadership to resolve complex issues and identify product improvement opportunities.
- Led technical implementations, proofs of concept, and production incident investigations for SMB, enterprise, and Fortune 500 customers.
- Created troubleshooting guides, technical documentation, and playbooks to improve operational consistency and knowledge sharing.

### Senior IT Support
### HCL Technologies | October 2020-October 2022

- Delivered enterprise IT support across global environments, investigating and resolving technical incidents.
- Supported Windows, Linux, and enterprise SaaS platforms.
- Investigated Wi-Fi performance degradation following a firmware update, identified a reset MTU configuration as the root cause, and diagnosed the underlying connectivity issue.
- Maintained technical documentation and incident records to support consistent troubleshooting and resolution.

### IT Manager
### 10 Clicks Pro | 2017-2020

- Managed internal IT operations, SaaS platforms, employee technology, and operational processes.
- Administered Google Workspace, access controls, employee onboarding, and offboarding.
- Established IT operational standards, internal processes, and equipment management procedures.

### IT Manager
### IT Central Station | 2014-2017

- Managed internal IT operations, user administration, access policies, and employee onboarding.
- Implemented security procedures and developed disaster recovery and business continuity documentation.

## PERSONAL AI PROJECTS

**AI-Powered Customer Support Bot | patnick.click**

- Built and deployed an AI-powered web chatbot integrating the Google Gemini API to provide contextual, real-time customer support.
- Integrated dynamic business knowledge bases to ground responses in relevant business information.

**Home Monitoring Agent | AI and Serverless Infrastructure**

- Architected and implemented an event-driven home monitoring agent that orchestrates RunPod Serverless APIs to dynamically start and stop infrastructure running a 145B-parameter Ollama model.
- Implemented and tested an on-demand compute workflow for AI-based anomaly detection, using dynamic resource allocation to minimize idle GPU costs.

## TECHNICAL SKILLS

**AI and LLM Development:** Google Gemini API, ChatGPT, Claude, Intercom Fin AI, LLM prototypes, AI agent experimentation, AI-assisted troubleshooting, workflow automation

**Data and Analysis:** SQL, PostgreSQL, joins, aggregations, multi-table queries, root cause analysis, technical troubleshooting

**Product and Workflow Optimization:** Workflow design, process improvement, operational documentation, workflow requirements, troubleshooting guides, proofs of concept

**APIs and Integrations:** APIs, HTTP, webhooks, authentication, SaaS integrations, chatbot configuration, RunPod Serverless APIs

**Infrastructure and Development:** Python, Bash, Linux, Windows Server, VMware, Proxmox, Docker, AWS, Azure, Ollama

**Cross-Functional Collaboration:** Product and R&D collaboration, Customer Success, Support, Sales, stakeholder communication

## EDUCATION

**BA (Hons) History** Manchester Metropolitan University | 2005

## CERTIFICATIONS AND PROFESSIONAL DEVELOPMENT

- AWS Certified Developer - Associate
- Certified Google G Suite Administrator
- Google IT Support Professional Certificate
- Palo Alto Networks Cybersecurity Foundation
- Intermediate PostgreSQL
- AI Development Course (Dec 2025 to present)
- AI security labs
